

OxyAL™ Lifesaver

easy-to-use Emergency resuscitation

Air Liquide Healthcare has over 20 years of proven experience in providing medical gases and associated equipment such as the OxyAL™ Lifesaver to the Australian market. Our highly-qualified staff strive to serve all of our patients and customers as professionally, effectively and efficiently as possible.

- Emergency Services
- Inpatient Care
- Outpatient Services

Immediate treatment for patients who need emergency oxygen for acute and life-threatening conditions, including trauma, heart attacks and strokes. Complete with;

- Manual resuscitator, Guedel airways, Oxygen mask and tubing
- Medical Oxygen cylinder with in-built regulator, flow meter and handle
- Unique locking feature to prevent accidental valve opening
- Convenient backpack with adjustable carry handle for ease of transport
- Bag with high impact foam padding in all walls to protect the cylinder and regulator
- Highly visible reflective strip on bag that can be seen from all angles
- Always ready-to-use

Changing care. With you.
